Description: Macabee Estate Dorper Stud is located on "Baillie Farm" 90kms North East of Perth in the Avon Valley. The stud was founded in 2003 with the purchase of stud ewes and embryos from Yandiah Dorper Stud. Since then new genetics have been sourced from across Australia to ensure genetic diversity and help achieve our breeding objectives. We are committed to breeding masculine well muscled rams and feminine fertile ewes. While the stud is commercially focused using objective measurements to improve flock traits, the breed standards are maintained.
