

## **Glanmire Dorpers**

**Flock No: D200**

**Owner: Tony & Sandra Galea**

Description: We are truly Dorper converts and believe they are the future for the meat sheep industry in Australia. They are low maintenance easy care sheep and personally we find Dorpers intelligent and a very rewarding animal to breed. "Our commitment is to not only breed quality Dorpers but also ensure client satisfaction." A simple but powerful rule we like to follow - always give people more than what they expect to get. Visitors are always welcome, even if it is just to ask questions about Dorpers and have a look.
