

Namib Dorper Stud

Australian Flock No: D775

Owner: Katrin Sievers

Namib Dorper Stud is located in the Gippsland province of Victoria, two hundred kilometres east of Melbourne. The hillside farm is located on Lake Glenmaggie and is managed by dual Australian and Namibian registered Vet, Dr Katrin Sievers.

The very best Namibian and South African genetics feature in the pedigrees of our sheep. World Champion Namibian dorper breeder Philip Strauss with fellow countryman Floors Nell as well as an elite group of South African stud breeders consisting of Mickeys Phillips, John Dell, Tien Jordaan, and Ben Grobbelaar are represented.

Namib Dorpers is committed to providing hard working, highly fertile, heavily muscled rams to the Stud and Commercial sheep industry. We do this through a proven selection process where superior sires and dams are identified using the African Classing System.
