

# Annalara White Dorper Stud

**Flock No: WD027**

**Owner Steve Cresswell**

Annalara White Dorper Stud is located in Central NSW and a commercial White Dorper flock located in Western NSW.

Genetics from leading South African bloodlines are the foundation of our stud.

We intend to expand and develop our stud from the progeny of these bloodlines to one of the leading White Dorper Studs in Australia.

We are culling heavily with particular emphasis on producing a full shedding type White Dorper, with very little wool.

**Address:** Annalara Station, Wilcannia, NSW

**Phone:** 08 80919483 or 02 68872130
