

# Kaya Dorper and White Dorper Stud

**Flock No: 30 (Dorpers) & 114 (White Dorpers)**  
**Owner Adrian Veitch**

Kaya Dorper and White Dorper Stud was founded by the introduction of Dorpers from the stud of Tien Jordaan "Jordaan Dorpers" and the White Dorpers from Leon Snyman, Floors Brand, Dris Wiese, Kobus Schoeman, & Martin Compion. Kaya studs are both registered in South Africa (Dorper 5009, White Dorper 5010) with an annual inspection and classification performed by a registered South African inspector. All animals older than 12 months of age are sold with their official South African registration and are typed according to the RSA standards. All animals are performance recorded with the studs breeding aim being conformation, muscling and fertility. Kaya has exhibited in the WA show circle with great success.
