Fax:			
Brucellosis Accred. #:	592		
OJD Accred. #:	closed flock		
Description:	<p>We started our Dorper stud in 2011 from Phillip Strauss 17 ewes and two rams .We have done some embryo programs along the way .The Rams that went to Brazil from here were the ones that we used in the embryo programs ,which bred some very nice Rams .We are trying to stay in the same blood lines as much as we can to maintain the good size and conformation and type .In 2012 we also brought some White Dorper stud ewes from Kasteel and a couple of Rams. We have put a lot of focus into the correctness of the feet of our stud and continue to do so .</p>
